

**Continuing and Community Education Faculty Credentialing (Non-Credit)**

In keeping with the accreditation standards set forth by the Southern Association of Colleges and Schools, Tarrant County College ensures our faculty have the academic preparation and experience necessary to deliver high-quality education within our non-credit program areas. Defined in the Faculty Qualifications Chart, these standards are developed according to the College’s guidelines and are approved by the Academic Council specific to the course rubric.

Similar to the Credit Faculty Education minimums (degrees and coursework) must be awarded from a regionally accredited institution. Faculty with degrees from foreign institutions must submit an official evaluation by a certified National Association of Credential Evaluation Services (NACES) agency. Aligning of qualifications supports the pathways related to student learning and credential advancement.

TCCD requires official transcripts of the highest degree for all instructors of record. In exceptional cases (if approved by the hiring divisional dean and VPAA), certification by the registrar or other appropriate official of the degree-granting institution will be allowed. The department chair, campus chair, community education coordinator, or divisional dean will then use the credentialing process in Laserfiche to list the specific courses they accept at the levels described below to meet the minimum qualifications of the Texas Higher Education Coordinating Board (THECB).

Annual Review of Guidelines (Academic Year Timeline)	
October-December	Deans collect edits/updates from hiring supervisors
December (Prior to Winter Break)	All edits due to District Faculty Affairs
February Academic Council	Council Reviews all proposed edits
March	Publish chart for next academic year
