The Tarrant County College Graphic Services Department is responsible for the layout and design of all publications and instructional materials. The District Graphic Services office is staffed by a director, two publications managers and one secretary, with editorial support from the Public Relations and Marketing Department. Each campus has a Graphic Services Department staffed by a coordinator, manager and graphics specialist to meet campus marketing and communications needs. Collectively, the Graphic Services staff brings innovative experiences in commercial art, studio art, newspaper design, advertising agency design and visual communication theory together to support the mission of the College.

The District office and five campuses handle approximately 4,500 work requests per year. Each office coordinates print and digital design layouts for TCC. Projects range from booklets and postcards to digital signage and vinyl banners. Graphic staff work with internal and external customers to ensure that the design principles and standards of the College are upheld.

TCC logos and guidelines help the College present its messages in a clear and consistent manner — one that people will recognize, respect and remember. These guidelines serve as the fundamental reference manual for the entire Tarrant County College District. The overall intended effect is vitality and variety within a strong corporate identity.

This positive public image will extend to each of the associated programs, and all of the TCC community will benefit. Communicating well — with clear content and presentation — strengthens the reputation and visibility of the College. It is essential to prevent misuses and to partner with Graphic Services when using logos, typography, colors and other graphic elements. For more information, call 817-515-1209.
TCCD BRANDING

The ultimate goal of branding is to own a position inside the minds of the target audiences. Without mind share, we will never have market share. Which naturally brings up the question: What is a brand? A brand is more than a logo, more than a slogan, more than a “look.” Our brand is our promise to our constituents, be they prospective students and their families, faculty and staff, alumni, the communities surrounding our campuses, donors, or friends of Tarrant County College.

Where our brand focuses on our competitive edge, branding communications concerns our visual identity, an important aspect of branding. Creating a vibrant, consistent image for the College helps attract students and faculty and can strengthen alumni relations, fundraising efforts, and our relationships with the media and the Tarrant County community at large.

The College’s image is established, maintained and reinforced by its consistent use of its logo, colors and other identifiers across all communications. Our goal is to communicate to our many audiences a single, recognizable identity and image that conveys academic excellence and solidifies our image in a variety of venues. Strengthening and promoting that image will benefit all of our programs and new initiatives.
The standards and guidelines presented in this manual are designed to help enhance the image of TCC. Use of consistent, unified graphic images will increase public awareness of TCC and the services it provides. Consistency is the key to communicating TCC’s brand image. A vibrant, consistent visual image helps shape the way that our various constituents view the College, and helps us stand out in a crowded marketplace. Our promise of providing “affordable and open access to quality teaching and learning” comes alive when others view our logo, wordmark, seal and other TCC identifiers. Following the visual identity standards will support the College’s vision and mission and strengthen its institutional image and strategy for communicating with its various constituents.
TCCD LOGO

Usage
Tarrant County College District and Tarrant County College logos are the primary elements of the College’s visual identity. They present a standardized, definitive visual symbol that ensures continuity of identity for a wide range of uses such as stationery, business cards, forms, event signs, merchandise, etc.

The logo is placed in a prominent location on all official District and College materials.

Application
Use of the logotype Tarrant County College District is restricted for use by the TCC Board of Trustees, the Chancellor’s Office and the offices of the Chancellor’s Executive Leadership Team.

It is commonly used in communications that are official College business in nature, and applications could include, but are not limited to, such items as contracts, responses to Open Records Requests, the official Student Handbook and course catalogs.
**TCC LOGO**

**Logo Construction**
The TCCD and TCC Logo is constructed with two graphic elements: the logotype (Tarrant County College District or Tarrant County College) and the mark (the five-pointed star). In all uses, those elements work together as one unit and should not be separated.

**Legal Protection**
Tarrant County College District employs legal protection of its logos. Parties not directly affiliated with the College must obtain permission from the Director of Public Relations and Marketing to use any of the logos outlined in this guide.
TCC WORDMARK

Wordmark
The Tarrant County College wordmark consists of the College’s name and web link, which comprise one unit. The proportion and spacing of the elements are permanent.

Application
The TCC Wordmark should be used only in situations in which the primary logo will not suit the application due to limitations of space or format and/or in situations that call for a simplified logo representation, such as some branded merchandise.

Wordmark Construction
The TCC wordmark is constructed with two graphic elements: the mark (TCC) and the logotype (Tarrant County College).

Wordmark fonts are Century Gothic regular and bold. Only the wordmark is used when there is not enough space to accommodate the TCC logo as well.
**MASCOT/SPIRIT LOGO**

**Definition**
The spirit logos are reserved generally for informal materials such as those used by departments or student groups. Academic, business or legal materials do not use the spirit logos. To preserve visual harmony, spirit logos are not used in combination with the Tarrant County College logo.

**Spirit Logo**
The spirit logo’s name is “Trailblazers,” the official mascot of Tarrant County College, which is presented typographically. The TCC mascot’s nickname is “Toro,” Spanish for “bull.” The spirit logo may be in promotional materials, for morale and recreational functions.

**Summary**
The Tarrant County College Trailblazers logo aims to:
1. Present a marketable character for outreach among youthful audiences
2. Increase a sense of community among faculty, staff and administrators.
3. Enhance loyalty to TCC
SEAL

Usage
The official seal is reserved for official and legal college documents — including diplomas, transcripts and certificates — and formal decorative use as authorized by the Chancellor.

Seal Components
The primary components of the official seal is the Tarrant County College District (TCCD) Acronym. The overlapping order of TCCD letters gives relationship, reading direction, and creates the illusion of depth. Therefore, overlapping them holds the letters together and become a unified working piece.

Applications
The seal is not used interchangeably with the logo or other symbols. Those who wish to use the seal must obtain permission from the Director of Public Relations and Marketing.

EEO Alternate Version: Equal Opportunity/Equal Access Institution
Any office planning to market the College or to promote a program or event to external audiences must submit a Graphic Services Job Request. The form is available at http://lib-serv.tccd.edu/graphics/ or through the intranet.tccd.edu. The purpose of the job request form is to ensure that a job is completed within a set timeframe and that the proper communication vehicle is being used to distribute that message.

Once a Graphic Services Job Request has been filled out and forwarded to the campus Graphic Services Department, design consultation and assistance is available to complete the project. Consult Public Relations and Marketing (817-515-1542) for assistance with messaging for print pieces and web content.
PUBLICATIONS: WORK ORDER PROCESS

Graphic Procedures
The Graphic Services Department’s work order process aids with planning and development. These procedures aim to assure alignment of materials with TCC graphic standards. A Graphic Services coordinator is assigned to help guide each project through to completion.

Timetable
Simple printed materials (e.g., brochures and fact sheets) require at least 4-8 weeks for completion. More complex pieces, particularly those that require multiple reviews, interviews and/or proofreading, will require more time. Graphic Services will assist with the development of a project timetable.

Publication and Print Production Process:
Projects begin with questions to help sketch the client’s objectives and other details:

1. What do you hope to accomplish? *(project objectives)*
2. Who is your audience?
3. What is the central message? *(most important point)*
4. What is your budget? *(printing, promotion)*
5. What is your deadline?
6. How will the material be distributed?
*The Planning Your Publication form is available by request from the Graphic Services Department at 817-515-1209.

*Graphic Services Project Request Form available online: https://lib-serv.tccd.edu/graphics/
The goal of this manual and the process it sets forth is not to stifle creativity. Rather, the goal is to convey a consistent look that is easily recognizable, particularly among materials destined for the same audience. For example, today's highly sought, college-bound students receive marketing materials from hundreds of colleges and universities from across the nation, so the key is having TCC’s materials stand out in the marketplace via a consistent “look and feel,” much like your favorite brand of toothpaste might stand out among the dozens of offerings on the supermarket shelf.

When coordinated in a consistent manner, graphic elements such as symbols, typefaces and colors convey a unified, “family” image and enhance TCC’s ability to communicate effectively with its various publics.
POWERPOINT TEMPLATE

PowerPoint Application
Shown above are the standard templates for use with PowerPoint presentations that are official in nature, e.g., for either Districtwide, individual campus audiences, or the external community.

The official PowerPoint templates are available in two display formats, 4:3 and 16:9 - Widescreen. To download the required template go to tccintranet.tccd.edu.

Footer/ Background & Footer
Four-color logos are positioned at top-right of PowerPoint presentations for maximum visibility. In that location, the logo does not compete with the slide text.
PROMOTIONAL PRODUCTS

Application
TCC offices may use the College's logo on promotional materials used for events or outreach, such as student recruitment, and do not need to pay a license fee if the products are not for sale. Artwork must be approved by the Graphic Services Department.

Trademark
TCC’s logo is a registered Federal trademark and is owned exclusively by the Tarrant County College District. Therefore, all uses and representations of the College’s logo are licensed, which protects the College’s name by ensuring that products bearing the TCC name or logo are of high quality and are produced in good taste.

Featured above are some of the most common or most often used products. If you have additional uses on products or related questions, contact the Graphic Services Department at 817-515-1209.
PHOTOGRAPHY

Usage
Photography brings the TCC brand to life. In that regard, photos strive to capture human activity at TCC whenever possible and appropriate. To capture the educational experience at TCC, humanize photos of buildings by including people or action. Avoid photos of buildings alone.

Diversity
Photos for a TCC publication strive to capture TCC’s diverse range of students, faculty and staff with compelling settings and angles in a real-life context.

Sense of Place
Photos add a clear sense of place when environments or backgrounds capture the community, the various workplaces of our alumni or a campus.

Release Forms
Never use or take a photo without a signed photo release form from the subjects. This applies to photos for any published form and medium of advertising or publicity for TCC. Signed and dated release forms for photos used in marketing the College should be kept on file in the Public Relations and Marketing and Graphic Services departments. Release forms are available from those departments.
Do consult with the Public Relations and Marketing office before developing any new publications and when you have questions regarding the visual identity manual.
