

IIR Corner

June 2015

In the ninth issue of IIR Corner, first time in college (FTIC) students who started at Tarrant County College District (TCCD) in the fall and ended that term on academic probation were tracked to the following spring. The students who returned were observed to determine whether they moved from probation to a good academic standing.

Noteworthy observations:

- 1) Roughly one in four FTIC students were on academic probation at the end of the first term.
- 2) Of the FTIC students who were on probation at the end of the first fall term and returned the following spring term, almost two out of ten moved from academic probation to a good academic standing.
