

# IIR Corner

December 2016

In this issue of IIR Corner, a count of students who earned a degree or certificate in Computer and Information Sciences is investigated.

Noteworthy observations:

- 1) Of the AAS Degrees awarded for 2014-2015 and 2015-2016, the top two degrees were in Network Support and Security.
- 2) Of the Certificates awarded for 2014-2015 and 2015-2016, the top two certificates were in Cisco Support and Information Technology Support.

## Associate of Applied Science (AAS) Degrees Awarded in Computer & Information Sciences

In this section, the number of students who earned an AAS degree in academic years 2014-2015 and 2015-2016 is presented. In 2014-2015, there were 82 students who earned an AAS in Computer and Information Sciences. The top four degrees awarded were in Network Support (25), Security (21), Programming (18), and Web and Internet Services (9). In 2015-2016, there were 84 students who earned an AAS in Computer and Information Sciences. The top four degrees awarded were in Network Support (36), Security (21), and Programming (13) and Web and Internet Services (13).

## Certificates (CRT) Awarded in Computer & Information Sciences

In this section, the number of students who earned a Certificate during academic years 2014-2015 and 2015-2016 is shown. In 2014-2015, there were 161 students who earned a Certificate in Computer and Information Sciences. The top Certificate awarded was in Information Technology Support with 61 students. Cisco Support (58) and Programming I (19) came in second and third respectively. Tying for fourth place with 17 students were Programming and Security II. In 2015-2016, there were 182 students who earned a Certificate in Computer and Information Sciences. The top four Certificates awarded were in Information Technology Support (81), Cisco Support (65), Programming I (22), and Security II (21).
