

# National Student Clearinghouse Data: Transfer and Completion Rates

## TARRANT COUNTY COLLEGE DISTRICT

2010FL, 2011FL, 2012FL, and 2013FL First Time in College Student Cohorts

Prepared By:

OFFICE OF INSTITUTIONAL RESEARCH

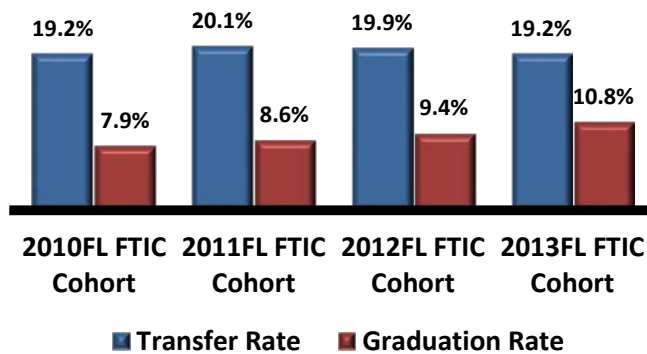

## SECTION 1: How many TCCD FTIC students complete at TCCD or other institutions, and how many transfer to other institutions?

The figures below show the 3-year and 4-year transfer and graduation rates.

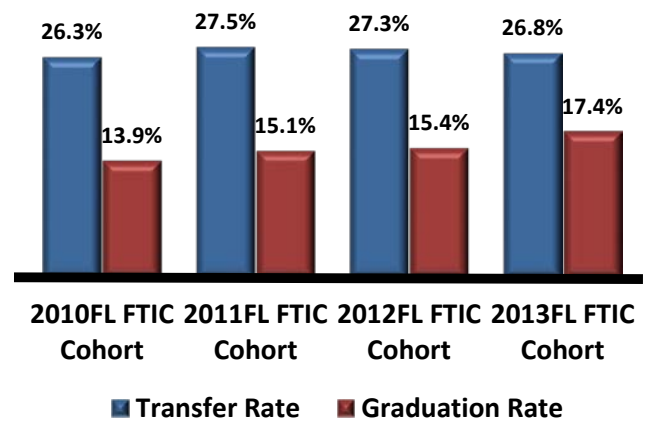

### Key Findings:

- The 3-year transfer rate stayed mostly consistent around 20%.
- Similar to the consistency of 3-year transfer rate, the 4-year transfer rate was steady around 27%. Thus, an additional 7% transferred during their fourth year.
- Unlike transfer rates, graduation rates increased over time. The 3-year rate increased from about 8% (2010FL FTIC cohort) to about 11% (2013FL FTIC cohort). The 4-year graduation rate increased from about 14% (2010FL FTIC cohort) to about 17.5% (2013FL FTIC Cohort).

Please note: Graduation numbers include graduates from TCCD and other institutions as denoted by National Student Clearinghouse records.

## SECTION 2: What are the top ten TCCD FTIC transfer institutions?

The figure below shows popular transfer institutions.

### Key Findings:

- The University of Texas at Arlington (UTA) and The University of North Texas (UNT) were the most popular transfer schools for the 2013FL FTIC Cohort. Of those who transferred, about 37% transferred to UTA or UNT within 3 years and about 44% transferred to UTA or UNT

Of those who transferred, just over one in three students transferred to UTA or UNT within 3 years.

**DEFINITIONS:**

**Transfers:** A transfer student was defined as any TCCD FTIC student who enrolled in an institution of higher education outside of TCCD, either concurrently or after enrolling at TCCD.

**Graduate:** A graduate was defined as any TCCD FTIC student who earned one or more awards at TCCD, at an institution or higher education outside of TCCD, or both.

**Years:** Three and 4-year time points for transfer rates were defined as August 1st of the cohort year to July 31st of the year censored. For completion rates, the year censored was extended to August 31st in order to account for Summer graduations. For example, NSC data was examined for 3-year transfer rates among the 2010FL cohort from August 1, 2010, to July 31, 2013. Three-year graduation rates for this cohort were examined through August 31, 2013.

*Source: Enrollments and awards granted in these data reflect those reported to National Student Clearinghouse (NSC) by participating institutions.*

Please note that the NSC does not have information on every student, thus, missing data is expected. NSC-participating colleges and universities enroll over 98% of students in the U.S. and NSC-verified degrees represent over 90% of U.S. four-year degrees. NSC often provides the best overall estimates for student transfers, concurrent/previous enrollments, or degrees completed at outside institutions. However, the data may be incomplete.
