

# TRANSFER SUCCESS OF FIRST TIME IN COLLEGE (FTIC) STUDENTS

An overview of the 3-year transfer rate to four-year colleges for TCC's 2012FL to 2021FL FTIC cohorts and a 6-year Bachelor's degree rate for TCC's 2012FL to 2018FL Fall FTIC cohorts are presented in this report. Each FTIC cohort tracked had roughly 7,500 students, on average.

## Transfer in 3 Years

### 3-Year Transfer Rate:

On average, about 16% of FTIC students transferred to a four-year college within three years.

- The three-year transfer rate increased from about 14% for the 2012FL and 2013FL cohorts to about 16% or 17% for most of the 2014FL to 2019FL cohorts. Most recently, the rate spiked to about 20% for the 2020FL and 2021FL cohorts.
- Of those FTIC students who transferred within three years, the percent who had also earned an Associate's degree or certificate at TCC in three years rose from about 16% for the 2012FL cohort to about 30% for the 2016FL to 2020FL cohorts. Most recently, the rate spiked to 35% for the 2021FL cohort.

**3-year progress (on average):** About 16% of FTIC students transferred to a four-year school with about 25% of these transfer students having also earned an Associate's degree or certificate at TCC.

### Top Transfer Majors:

Of the FTIC students who transferred to a four-year college in three years, roughly four in ten students had one of the top-five majors.

#### Top 5 Majors

52.0201) Business Administration and Management, General.

### DEFINITIONS:

**Transfers:** A transfer student was defined as a TCC FTIC student who enrolled in a **4-year** college either concurrently or after enrolling at TCC within 3 years of their FTIC term

**Years:** The three-year time points for transfer rates were defined as August 1<sup>st</sup> of the cohort's first term to July 31<sup>st</sup> three years later. The six-year Bachelor's degree time points for graduation rates were defined as August 1<sup>st</sup> of the cohort's first term to August 31<sup>st</sup> six years later.

*Please note that the NSC does not have information on every student, thus, missing data are expected. However, NSC-participating colleges and universities enroll over 99% of students in the U.S.; thus, NSC often provides the best overall estimates for student transfers, concurrent/previous enrollments, or degrees completed at outside institutions.*
