

EXECUTIVE SUMMARY: DUAL CREDIT WITHDRAWALS

As a result of the COVID-19 pandemic, students may have had additional challenges causing them to withdrawal from courses that might have been completed under normal circumstances. A comparison of withdrawals by dual credit student in 2017SP, 2018SP, 2019SP, and 2020SP and a summary of 2020SP withdrawals are presented in this report.

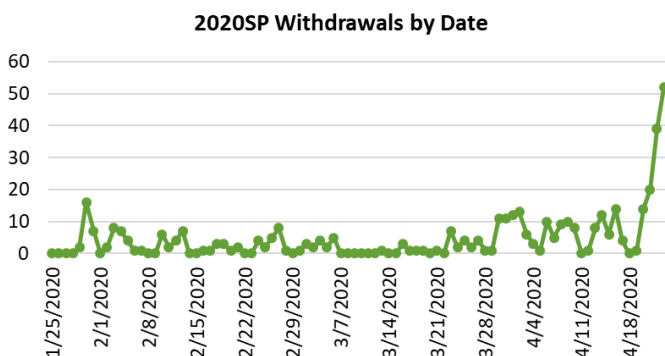

Total Withdrawals Comparison

In 2017SP, 2018SP, and 2019SP, the total number of withdrawals by dual credit students was near 270. However, the total increased to about 420 in 2020SP, and the **withdrawal rate increased** about 1 percentage point from just under 3% (2017SP, 2018SP, 2019SP) **to 4%** (2020SP).

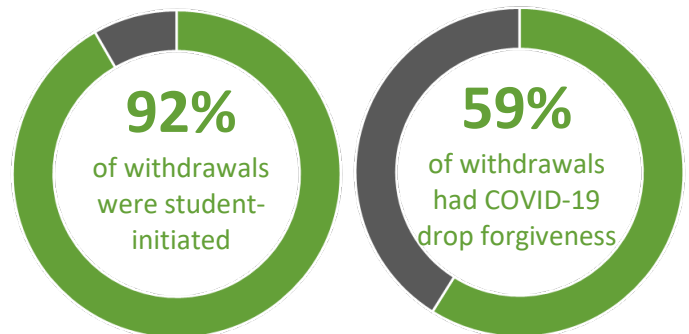

2020SP Withdrawal Pattern

Prior to mid-March (day 60) the numbers of withdrawals for 2020SP (~120) was higher than 2017P and 2019SP (~100) but lower than 2018SP (~150). About **70%** of 2020SP withdrawals occurred **after mid-March** with over **50 withdrawals** occurring on **the last day** to drop (April 23rd).

2020SP Withdrawal Summary

- The top three courses with the highest number of withdrawals accounted for about one-half of all withdrawals by dual credit students.

2020SP Withdrawals by Course

- The withdrawal rate for females was about 3.5% compared to almost 5.0% for males.
- The withdrawal rate for Black/African Americans and Hispanics was about 5.0% compared to almost 3.5% for Whites.
- Of the dual credit students who withdrew (N=332), almost 12% withdrew from more than one course.
