

PHYSICAL THERAPIST ASSISTANT INFORMATION SESSION

TRINITY RIVER CAMPUS EAST

PURPOSE OF THIS SESSION

- Briefly describe the profession of physical therapy and the role of the PTA
- Outline the essential job functions of a PTA
- Outline the details and application procedures for the TCC PTA program
- Answer any questions related to the profession, program or application process

WHAT DOES A PT/PTA DO AT WORK?

- Restore maximum function possible after injury or illness, prevent injury and promote overall wellness across the lifespan and continuum of care.
- Injuries/illness to bones, muscles, joints, brain, spinal cord, skin (wound care), post cardiac event or those battling cancer can benefit from physical therapy.
- Examples of common physical therapy interventions
 - Strengthening
 - Balance training
 - Stretching
 - Aerobic exercise
 - Coordination and timing of muscular activation
 - Manual therapies
 - EDUCATION

WHAT IS A PTA?

- An extension of the physical therapist who works under the direction and supervision of a physical therapist.
- The nature of the role is comparable to that of a physician/physician assistant or nurse practitioner.
- Curriculum is much more compressed, but the content is mostly the same as a PT program

PTA MAY BE A GOOD CAREER CHOICE IF...

- Compassion and interest in helping people
- Lifelong learner
- People person
- Good communication skills
- Good time management skills
- Critical Thinker/problems solver: able to figure out a solution when things don't go as planned.
- Work well with others

WHERE DO PT/PTA'S WORK?

- Hospitals
 - Many settings
- Outpatient Clinics
- Schools: K-12
- Nursing homes
- Home Health
- Prisons
- Corporate Health/Wellness
- Industry and ergonomics
- Sports teams: (Professional, collegiate, Olympics)
- Education: PT/PTA Programs
- Dance Companies/Performing Arts Medicine
- Rodeo circuits
- Travel PT/PTA

ESSENTIAL JOB FUNCTIONS

- **Visual Acuity** (with corrective lenses, if needed)
- **Hearing ability** (with auditory aids, if needed)
- **Physical ability** (see next slide)
- **Ability to communicate efficiently and effectively**
 - Verbal, written
- **Ability to manage stress and stressful situations/environments**

- **Lifting** (in excess of 50 pounds for patient transfers activities)
- **Pushing and pulling** moderate loads (wheelchair, equipment)
- **Walking and standing** (more than 30 minutes without a break)
- **Stairclimbing**
- **Sitting/squatting/stooping** (bending at the waist)
- **Reaching** (above shoulder level and behind the body)
- **Manual Dexterity** (bilaterally functioning hands)
- **Environmental Conditions** (culturally diverse, high stress, fast-paced, various age groups, various diagnoses, high risk for exposure to biohazardous waste and diseases such as Hepatitis B, TB, Coronavirus, and HIV)
